GRAPEVINE

wall bookshelf

Grapevine is a wall bookshelf made of solid wood and metal. The shelves, a mere metal profile, are the main feature of this light and adaptable bookcase. Thanks to the grooves on the back side, shelves can be moved horizontally or vertically; they can also be combined with wooden or metal boards for books. Grapevine units can be assembled in series in order to cover large walls with a unique shelves system.

The mesh can be easily removed to be washed or changed. Monterey is a comfortable armchair thanks to a suspended seat which easily adapts itself to the shape of the body. Monterey is matched with a comfortable footrest.

RHAPSODY

coffee tables

Rhapsody coffee tables' family is composed of three metal and terracotta pieces. All our products are made in Italy
with the help of italian manufacturers.

We use fine high quality materials, such as
wood and terracotta, that are processes by hand.

Therefore changes in color and finish, as well
as small variations between one piece and another,
are perfectly normal and show the natural origin of the
raw materials and the artisan nature of the processes.
