

Unica<sup>®</sup>

Attention to details and Italian production quality are enhanced by the rich emotions triggered by a light that's unique in all the world.

Unica offers a range of splendid furnishing objects dedicated to beauty, which at the same time are functionally unique.

Unica is in fact the result of the long experience of the Cantoni brand, acquired in more than 20 years of studies on light and reflections.

The Unica line consists mainly in mirrors and backlit frames of a high quality and with a perfect chromatic yield, featuring modern and essential lines combined with all the romantic atmosphere of the backstage of a movie set.

The ample range of Unica mirrors is completed with make-up corners dedicated to beauty and bodycare: we've designed a new generation of these corners combining the classic style of an artisan vanity table with the advanced technology of I-Light lighting and the sensual linearity of satin-finished aluminium.

This is how we create mirrors and decor accessories, bright with colour and images or simply with pure light, capable of furnishing an entire room with their strong character.

The Unica logo tells the story of these products, which are the result of 18 months of hard work: technical lines and materials, gracefully reinterpreted with a charming and subtle feminine touch who loves to care for beauty.

THE NATURAL HARMONY OF FORMS  
AND THE MAGIC OF SUNLIGHT

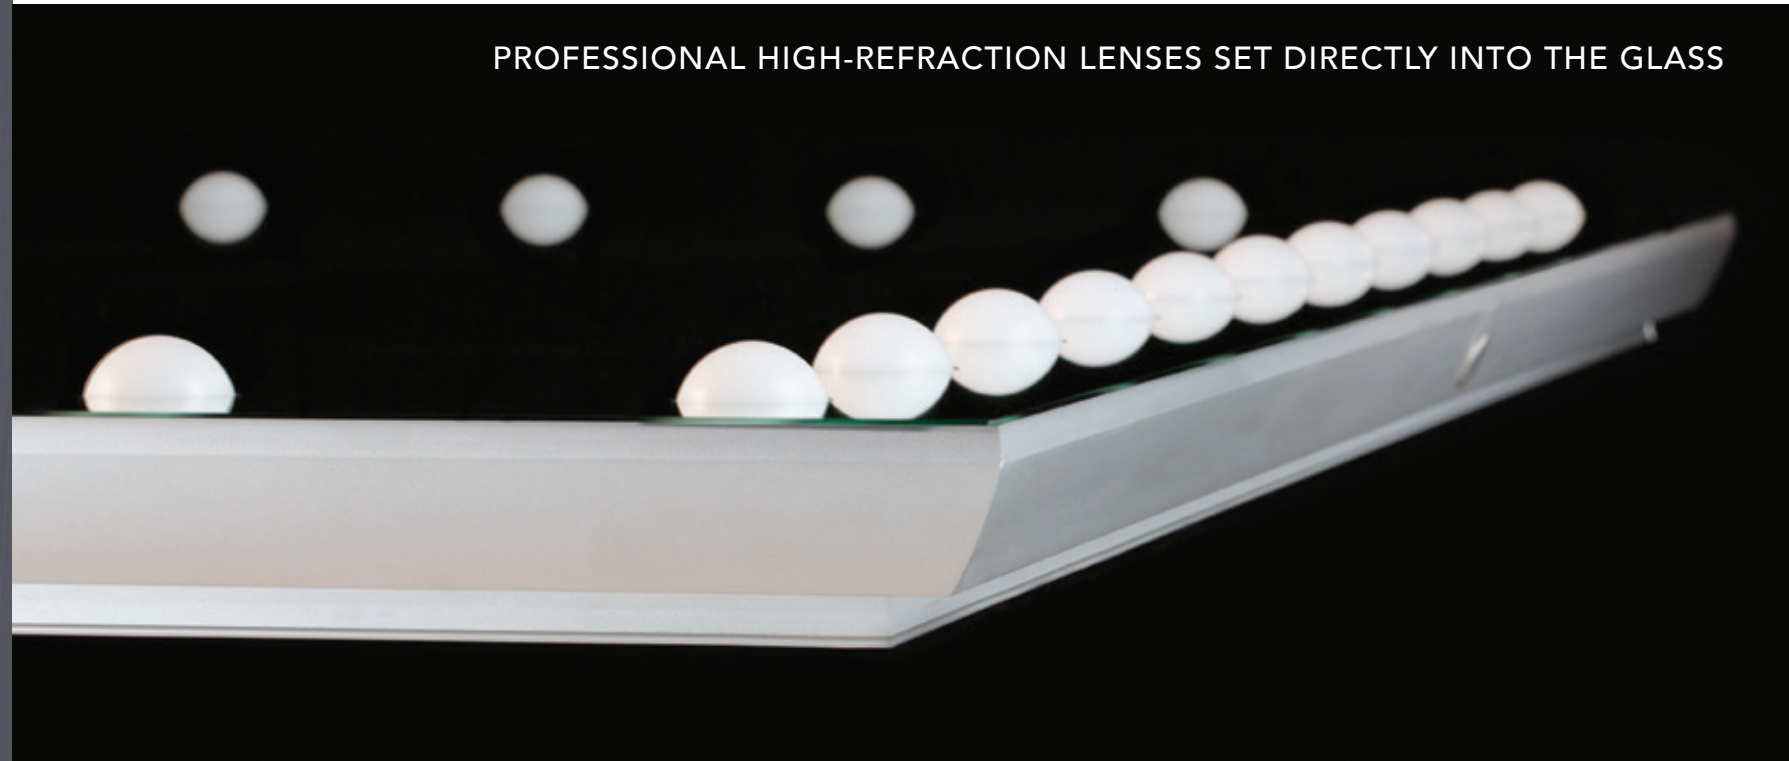

EDGED IN SATIN-FINISHED ALUMINIUM

The light sources, created by diffusion lenses fitted directly into the mirror, generate a warm shade of light that is perfectly mixed to simulate natural light and does not distort colours, thanks to the specially designed LED circuits beneath them.

Backlighting furnishes rooms with light, giving them an attractively evocative atmosphere.

PROFESSIONAL HIGH-REFRACTION LENSES SET DIRECTLY INTO THE GLASS

Forms and profiles spread and amplify the soft embrace of the light generated by both frontal light sources and backlighting. Structures remaining undeformable over time, combined with refined details.

WE BELIEVE #MIRRORS MUST  
BE FUNCTIONAL OBJECTS

Looking into a Unica mirror, all shadows disappear from the face, the mind and body relax, and shaving and bodycare become splendid moments in which to enhance and reinforce the self-image.

# HOW CAN #LIGHT FURNISH A ROOM?

Backlit mirrors, with essential and minimalist design lines, glowing with light and transparency or shining with the lively colours of the images they show.

Decor, lightness, fantasy and colour are indissolubly combined with the perfect luminosity of the I-Light diffusion system.

Every woman will be able to enjoy her own personal beauty corner, becoming a true star day after day.

When the power of an image and the power of light merge, the marvellous appeal of the superb Iconic model is created: a mirror with professional lights with very low power consumption and a remarkable light output, inserted in an equally brilliant backlit image.

The Iconic wall mirror, with a backlit image in both the advertising and decor versions, allows an image to be inserted into the satin-finished aluminium edging profiles, giving it a particularly striking presence thanks to backlighting.

Furnishing accessories that blend with the surroundings, enhancing them with precious reflections and able to attract the attention.

#ATMOSPHERE

#ELEGANCE

# A SUPERSTAR #MIRROR

Thirty spectacular light sources. A reflected image perfect in every detail.  
The ideal and irreplaceable protagonist of any sales point.

The choice of furnishings and accessories is your most important and exciting moment, because these are the details that transmit your capacity to cater for your customers' needs exclusively and with professionalism.

Long-lasting mirrors with low power consumption that transform the walls of a salon into windows attractively lit by sunlight.

The accuracy of reflected colours will never be a problem again.

UNICA #MIRRORS LOVE TO BE CUSTOMIZED

The lights and style of Unica mirrors make us splendid protagonists, celebrities pandered by the expert hands of skilled beauty professionals.  
Could there be any better opportunity to fix a brand or a name in the minds of your customers?

#LIGHTTECNOLOGY

Unica make-up corners are the ideal solution for every woman's dream of finally having her own exclusive space with everything she needs for her beauty care.

Lively console tables that are easy to transport, wall-mounted or stand-alone make-up stations, vanity mirrors that unite technology and design with classic styling, innovative make-up chairs.

The chairs of the Unica range unite a warm and traditional material like wood with a structure with an innovative design in satin-finished aluminium in a range of colours.

Foldable with anti-tipping system.

#INNOVATION

A new generation of make-up corners that combine the classic style of an artisan vanity table with the advanced technology of I-Light lighting.
