

A close-up photograph of a woman with dark, wavy hair and a fur collar. She is looking directly at the camera with a slight smile. Her right hand is extended towards the viewer, with fingers slightly spread. The background is a light, textured wall.

Unica®

“YOU FLOOD MYSELF WITH LIGHT OF THE IMMENSE”

UNICA

COMPANY PROFILE

FIAT LUX. (BUT NOT A COMMON ONE)

The light is perfect if it has the ability to create suggestions and wake up deep sensations. It is just this emotional light that is the distinctive feature of Unica's furnishing range of products. Over 20 years of studies have been carried out in Cantoni about the light theme, together with make-up artists and beauty specialists worldwide: Unica mirrors and furnishings are the "summa" of all this researches and experiences. "We fancied to propose a really unique product, merging theatrical style, essential design lines and a flawless reflection of the light: we have obtained objects able to transform nearby spaces in an almost prodigious way" (M. Dainese – Project Manager)".

A CHANGE IN PERSPECTIVE

The Unica furnishing line is mainly composed with mirrors and panels, lighted up with a flawless chromatic rendering of the image. The range of products is completed with special corners dedicated to the care of self: here, the charm of the classic hand-made vanity table coalesces with an advanced light technology and with the sensual linearity of the satinized aluminum. The Unica mirrors are a real unique project: the market was urgently asking for products being able to recall style and sensations of theatre and cinema backstages. Cantoni, well experienced in this fields, has answered the request with products that not simply mimic the ones in the show business. Today, every mirror of the Unica's range, is a work of art, realized with an alchemy of experience, innovation and magic. Unica's products are intended for Ateliers, Boutiques, Luxury Hotels and for home furnishing. Unica aims to introduce a change of perspective in the world of space design: the mirror is at the center of the room and the light is the undisputed leading actress.

UNICA PRODUCT LINE

The clean profiles and the minimal thicknesses make of the Unica products the ideal furnishing elements for modern settings and classical settings too. These objects, with their neat and refined design, keep everyone's gaze on. They blend in and embellish every room with rich reflections. Care of the details and Italian quality make an optimum pair with the emotion created by a light that is absolutely unique in the world: the exclusive lenses embedded in the mirror surface diffuse a light shade perfectly mixed in order to simulate the natural day light. The backlighting donates an evocative atmosphere to the environments, the profiles diffuse and amplify the light in a soft and embracing way. Stress-resistant structures and sophisticated details complete the picture.

DESIGNED BY EXPERIENCE

The creators of Unica are all professionals of image and beauty. A photographer and a make-up artist have merged their vision to the technical abilities of an architect, to the organizational abilities of a project manager and to the handcrafting abilities of highly specialized Italian artisans.

The Cantoni staff has added to this special mix its 20 years of experience gained in the world of professional make-up artists.

Ettore dall'Arara, mastermind of Unica, has followed the development process, lasted more than 18 months, with the objective to realize and convey the idea he had so clear in his mind: a mirror where the light was the main actress, furnishing products in which beauty and functionality walk hand in hand with technology and innovation.

The result is Unica," designed by experience".
